# Alleman Transfer Grants

The Alleman Catholic High School academic program is designed to stimulate excellence in the pursuit of learning. This includes instilling the principles of hard work, self-discipline, and academic excellence in all students.

Our students benefit from a variety of activities, clubs, and organizations that enrich their high school experience and prepare them for the demands of meaningful involvement in college. We consider the athletic experience to also be an important part of our students' overall development, with an emphasis on achieving success via leadership, sportsmanship and teamwork.
